

Stove conforms

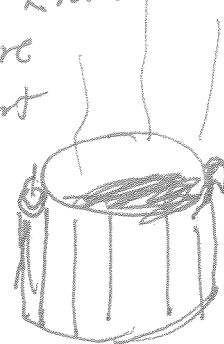

to the food, eliminating  
the need for

pots and  
pans that  
waste energy

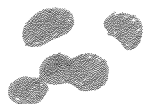

Camera and  
Sensors know

what you're  
cooking, alert  
you when  
it's done  
and turn  
off the  
heat

The stove  
only heats where  
there is food.

Potatoes!  
Yum

2.3 lbs of  
food

Stove Pan

Water is  
ready!

Medium Well

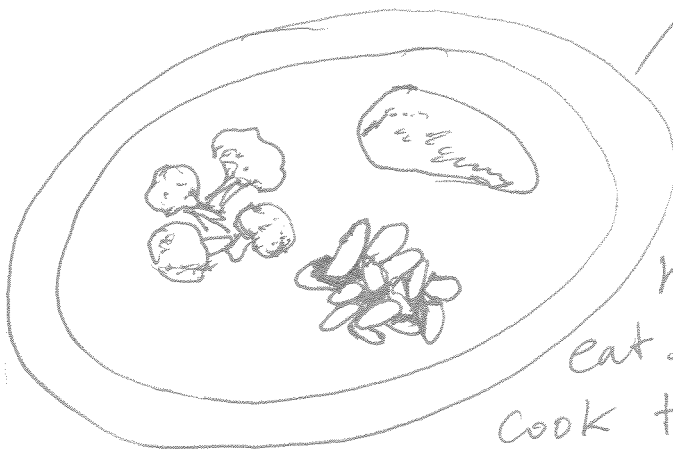

Stove top Collaborator Communicates  
key info to the user

Collaborator  
Stove

Saves E by avoiding  
overcooking

Displays how well  
cooked food is. Allows  
user control/v feelings of  
convenience

Keeps track  
of how much  
you cook and  
how much you  
eat so you do not  
cook too much.
